

ATTENTION PINE GROVE WATER CUSTOMERS

Effective July 1, 2026 water rates will increase for our Residential, Commercial and Industrial water customers.

The Pine Grove Water Department will be submitting for grant/loan through PennVest for proposed water line to run on S.R. 443/ Deturksville Road from Pleasant Valley Homes/ Coal Town Supermarket to Halton Hill Road. We will also begin the process to replace the existing line that runs from our wells to our chemical building which is about a three-mile span. We are working on approval for two new wells to help assist our water system. There are two current wells that are need of repair at this time. We are hoping DEP will approve our project in the very near future!

The total increase for Residential and Commercial water customers is \$25.00 per quarter which breaks down to \$8.33 a month increase.

This would be for the base rate only.

Borough Residential/ Commercial water customers: Current is \$125.60 per quarter to \$150.60 per quarter.

Township Residential/ Commercial water customers: Current is \$146.92 per quarter to \$171.92 per quarter.

The total increase for Industrial water customers is 25%.

Thank you for your understanding.
